On the basis of understanding. to remember. this is a good way. Encounter can not remember the formula. he deduced what. even if the examination can not remember a time. now have time to push. And derived several times. that formula will gradually become your eternal memory. Many students do not comprehend the mathematical characteristics. In order to complete the teacher's job to do light to pursue the number of questions. like the bear breaking King meters. the effect is not known. This mathematics. general science is not good. A question wrong. whether it is correcting the teacher. or own answer for it. you should immediately reflect on the wrong problem asks where this reflection will not delay long. but since then. you can avoid a similar error. you can gradually learn mathematics. Errors on the papers. it is necessary to carefully classified. can not simply be attributed to careless errors. If you lose the reasons for each sub-classified as follows: careless careless. lax moderation. the concept is unclear. basic skills tests. lack of time. the process is not complete. capacity is less than. etc. you will find your true weaknesses. Next efforts will find a direction. Review before the exam the most effective method is done to do the subject missed. So wrong on every exam question. should focus on labeling and classification of preservation. If hands-on math. want to learn is not possible. Holding the book to see the light. as if to see to understand. in fact. because they were not hands-on. practical ability is getting worse. the quality of problem-solving. problem-solving speed of these basic skills will...
