Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Practical Aerodynamics and the Theory of the Aeroplane, Vol. 1: A Resume of the Principles Evolved, by Past Experiments It was my original intention to compile a complete book dealing in concise and simple manner with such of the principles of Aerodynamics as are applicable to the practical construction of flying machines. The subject, however, is one which calls for a great deal of time and attention, and, so far, I have not been able to devote sufficient of these to the matter so as to complete the work. But having published some portions as articles in Knowledge, I find numerous applicants asking for copies of what has appeared, and craving for further information. I think, therefore, that it may be of some assistance to those now working on the subject to bring out the first portion as a complete (if small) volume, and, following the good example of Mr. Lanchester, leave the second part to be published at some future time when I am able to complete it. This second part will deal with...
