Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Shipping Container Home 30+ Easy Decorating Designing Ideas! Transforming shipping containers into new homes - sometimes known as Cargotecture - is a rapidly growing industry all over the world. Professionals and amateurs alike have been using containers to create homes, offices, studios and storage spaces, as well as being used as emergency accommodation following natural disasters. This method of creating buildings is relatively cheap, eco-friendly (since they do not require new materials to construct and are saving space in landfill that would otherwise be taken up by abandoned containers) and allows the designer to create practical, perfectly-adapted and unique homes. They are easy to install and transport, quick to convert and sturdy enough to stand up to extremes of weather. Once you have designed and built your new home, however, you are still faced with the challenge of living in a space which is likely to be much smaller than a standard domestic home, as well as having a few physical and structural limitations. In this book we will go through some of the important points to consider,...
