Approximately 4. 54 billion years ago, during the formation of this blue-green planet Earth, wormholes appeared in space near the forming planet. These wormholes allowed matter from a connected alternate universe to flow into our universe. The matter gradually formed a solid sphere and the force of gravity drew the sphere inexorably toward its traveling companion....

Reviews

This publication can be well worth a study, and far better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly simple way and it is only soon after i finished reading through this book in which really transformed me, alter the way in my opinion.
