

## Screening for Glaucoma: Comparative Effectiveness: Comparative Effectiveness Review Number 59

By U. S. Department of Health and Human Services

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 270 pages. Dimensions: 11.0in. x 8.5in. x 0.6in. Glaucoma is a leading cause of visual impairment and blindness and affects approximately 60.5 million people worldwide. Although glaucoma may be characterized by optic nerve damage, visual field loss, and elevated intraocular pressure, there is no consensus definition for confirming diagnosis. Damage is irreversible, so early detection can prevent severe vision loss. Open-angle glaucoma (OAG), the most common subtype of the disease, affects more than 2.5 million people in the United States, with a median age-adjusted prevalence of 4.6 percent among black people and 1.6 percent among white people (based on year 2000 estimates). Unfortunately, it has been shown that only half of the prevalent cases of glaucoma have been identified in the United States due to at least two factors. First, glaucoma is an asymptomatic disease that patients do not notice until the onset of advanced disease, accompanied by severe vision loss. Second, there is no single test to identify people with glaucoma, which has severely hampered the establishment of screening-based programs to detect the disease. The March 2005 U. S. Preventive Services Task Force (USPSTF)...

### Reviews

*This is the best pdf i actually have read till now. It typically fails to charge too much. Your life period will probably be transform the instant you total reading this publication.*

-- **Dr. Don Morissette V**

*This publication will not be simple to get started on looking at but quite entertaining to learn. It generally fails to cost an excessive amount of. You will not feel monotony at anytime of your time (that's what catalogues are for about if you ask me).*

-- **Bettie Gutmann**
